AIR FILTERS	(2) 23 x 32 x 1			
Shipping Weight	520 lbs.			

The unit can be moved around with a 4-wheel dolly (customer supplied).

An evaporator discharge plenum is installed on the unit, but can be removed if necessary, for transportation, moving through doorways, or the connection of field provided temporary ductwork.

Adjustable water regulating valve is factory installed inside cabinet, and must be field set for proper operation. An automatic condensate removal pump is also included in the unit.

This is a dual compressor unit with a unit-mounted two stage electronic cooling thermostat.
